# Project DASH

Project DASH has powered over 5 million deliveries of diapers, period supplies, groceries, prepared meals, home essentials, and more in partnership with nonprofits.

## Effective

DoorDash has a dedicated team to work closely with you to develop a reliable delivery program, whether you are struggling to find drivers, looking for ways to reach more households, reclaiming time lost on delivery runs, or piloting home delivery for the first time.

## Economical

DoorDash offers discounted rates, charged on a per-delivery basis, exclusively to nonprofits. Many of our community partners find that using Project DASH is less expensive than managing the deliveries themselves.

## Experienced

As a leading provider of home delivery for for nonprofits, DoorDash has experience customizing unique programs for hundreds of partners and use cases across the country.

## Flexible

No commitments: use our fulfillment services as much or as little as you like, whenever you need them. Just give us your list of deliveries with as little as one hour's notice.

### DELIVER ALMOST ANYTHING

- Send supplies to your agencies
- Pick up donations
- Logistics for packing events
- Home deliveries
- Anything else!

### PICK UP ALMOST ANYWHERE

- Unlimited pickup points
- Dashers can pick up from anywhere—even your own vehicles
- Drop off within a 10 or 15 mile radius
- DoorDash services 95% of the U.S. population and has many successful rural delivery programs

*"When we were looking for a delivery partner, we needed a company who had the experience to go from the food bank to our neighbors' doorsteps. DoorDash has been an incredible partner in our home delivery efforts. They have been able to coordinate pickups and delivery routes whenever is most convenient for the food bank. This helps ensure our neighbors get the food they need, when they need it."*

**— Marcos Gaucin**
Chief Programs Officer, St. Mary's Food Bank
