

Mobile Marketplace

The Agency Mobile Marketplace ensures that partner agencies of smaller household sizes can get access to fresh produce. An FSD truck will make stops across the county each week to provide agencies with produce. This program is open to all current and active FSD partner agencies that request produce for 90 HH or less. If you need produce for larger HH size, please speak to your coordinator about adding to our delivery schedule.

Expectations of Agency Attendees

Agencies must provide their correct P number and agency name to access produce. If you do not know your P number, then please ask your coordinator. (ex: P1234)

Our FSD driver will set up the product on-site for agencies to glean through and choose from. The agencies are responsible for respecting the host site and keeping the area clean.

The product you are choosing from is free of charge, but the agency is responsible for showing up on time and bringing their own boxes/bags to take items back to the agency.

Agencies MUST make sure that the FSD driver or volunteer weighs and records all items that are distributed. Please be courteous to our staff and other agencies present during this process.

Agencies may come to any Mobile Marketplace event in any region, regardless of where they are located and they can come multiple times a week if necessary.

Agencies must arrive within the agency check-in window listed in the orange column to be included. Even being just a few minutes late may result in the product being divided amongst those on time before your arrival.

Please Note

The warehouse staff will be making final decisions on the product available, and we will not be able to provide you with a list beforehand.

We may not be able to accommodate all requests. This is not a distribution for community members, and agencies present are responsible for addressing and assisting any community members that may approach the event.

Central/South Region

Wednesdays

Required check-in 8:00 AM – 8:30 AM
2575 Imperial Avenue, San Diego, 92102
